Bohemian Rhapsody celebrates the band Queen, their music, and their extraordinary lead singer Freddie Mercury, who defied convention to become one of the most beloved entertainers ever. Bohemian Rhapsody is an enthralling celebration of Queen, their music, and their extraordinary lead singer Freddie Mercury, who defied stereotypes and convention to become one of history's most beloved entertainers. Following Queen's meteoric rise, their revolutionary sound and Freddie's solo career, the film also chronicles the band's reunion, and one of the greatest performances in rock history. Top reviews from the United States J E Vann Reviewed in the United States on August 24, 2022 I am so glad this story WAS FINALLY TOLD! Verified purchase 3 people found this helpful sixthreezy Reviewed in the United States on April 6, 2019 Bohemian Rhapsody - A Killer Queen Movie Verified purchase It's been a new time for biopics in the last year, but this is one that I recall hearing about ever since Rami Malek was even rumored for a Queen film. He doesn't look EXACTLY like Freddie Mercury as a civilian himself, but this has been a casting choice long debated about in forums due to his unique look. Then it actually happened, and Rami was going to play Freddie Mercury in a biopic about the career of Queen and subsequently its frontman who died of AIDS related complications in the early 90s. If you're like me and have only heard the hits and knew the basics of the story, you're still going to have a good time with Bo Rhaps. I was surprised to see that critics actually were middle of the road on this film after I've heard so much about it and Rami's performance in the film. I guess I should say I'm not surprised really that critics didn't enjoy a movie that the common person did, but rather it was touted as one of the better films of the year with apparently very little critic support. While I did really enjoy this film, I think it's much to the credit of Malek's performance as Mercury. It's what I often call a 10/10 performance in an otherwise 7/10 film. If you're a fan of Queen though, you will most likely love this film. Bo Rhaps plays as essentially a greatest hits re-enactment, fortunately blessed by the embodiment of Mercury by Rami Malek. I don't know a ton about Freddie Mercury but I've seen enough pictures and clips over the years to know that his physical presence on stage was not only incomparable, but also extremely pronounced. For an actor that usually plays more timid characters, thinking of Mr. Robot, Rami does an incredible job of doing everything short of actually being Freddie Mercury. The look is down pat, the awareness of his teeth throughout the film is a character unto itself, and the progression of his attitude throughout is captured so well. From the moment he joins the band, we get renditions of the classics through the years starting with Killer Queen. Then the titular song, and on down the list. An incredible scene with a cameo from a Queen-related actor sets up probably the best punch the film has, which is during the Live Aid performance. For a non-comedy, I laughed so hard at the clip during one of the songs. I had also never seen the original performance, but after watching the film I went back and watched it on YouTube. It gave me chills how accurate and exact they captured that performance, and it was the first thing they filmed! I was a bit worried prior to watching the film that they would gloss over Freddie's personal life for sake of avoiding controversy, and then even more so when I saw what looked like a Shakespeare play playing in the background in the opening scene of the family home. After that, the movie is not subtle in tackling the subject matter of sexuality, but it also doesn't take it to the edge of gratuity like most rock and roll biopics would. However, this does result in a lack of emotional range considering my lack of emotional attachment to the band prior. I expected to shed a tear or two by the end of the film, but really the most unexpected scene of him being confronted by his fiancée with his sexuality was the closest it got to sad, but it was because of his pride in the performance he'd put into the song that was made for her. Otherwise, I was a little disappointed in the film for that reason, because I think a little more emotional punch really would have rounded out the movie well. But then I was talking about it the next day and realized that this is likely what Freddie wouldn't have wanted. In the film (which of course is not reality, but all I have to go off of), he says that he didn't want to be the poster boy for AIDS, and he didn't want all of the "woe is me" over him dying. He tells the band he wants to still be the greatest performer that ever lived, and thus the movie was put into perspective by its own main character. The film serves as a 2+ hour performance within a performance, as Rami navigates the troubled life of Mercury and shows how he was constantly breaking out of himself with his very flamboyant style and attitude, but never felt secure with who he was. For a movie with a guy wearing goofy dentures, it really could have been a dud. Rami's performance carries this movie on his shoulders entirely, while wearing a white tank and the tightest pair of jeans with a studded belt you've ever seen. It would have been cool to have a commentary from the remaining band members present to assist with the film, and maybe even the director, but it seems that would have been troublesome considering the falling out of Bryan Singer. The 4K, Blu-ray, and digital copies were all included in this release, and the case has a really great colorful cover that suits the film well. If anything, watch it for the well-deserved Best Actor of 2018 because it's a performance you don't want to miss. Now excuse me while I go listen to the Queen discography, because now all I want to do is jam! 4 people found this helpful Avid Reader Reviewed in the United States on September 19, 2022 Awesome movie! Hit songs become instant classics. When Mercury's increasingly wild lifestyle starts to spiral out of control, Queen soon faces its greatest challenge yet - finding a way to keep the band together amid the success and excess. MoviesJoy Review: This movie is one of my favorite movies last time. This movie, which I free even refuse to compare with the other ones is the masterpiece created by my favorite director. I know it gets a lot of stick for being the mainstream popular movie, but honestly I can not think of anything wrong with the movie online. Easily movie with the best dialogues ever. This movie has destroyed my mind and nothing will happen after that. Special effects, action and characters give this high rating. Sure there are classic movies which everyone like, and they are great. But Bohemian Rhapsody is just non stop awesome from start to finish. I wanted to add this full movie to the web you can now watch movie online free.
